To the Peruna Drug Co., Columbus, Ohio, U. S. A.

Gentlemen—Your medicine, Peruna, having been recommended to me by one of my friends in this city, I want to let you know the splendid results it has produced for me. As you will understand, a professional life, such as mine, is a heavy strain upon even the strongest constitution, and, in addition, my health was threatened by symptoms of catarrh. (See above.) Yours very gratefully, Virginia Fabregas de Cardona.

Diehl, the well known commander of the boat, with his hair parted in the middle, stood quietly on the main deck near the stern until deckhands had drawn the boat up to the wharf and cast a haw-ser to the pier. For a day when the boat does not take such a long trip as on other week days, there had been a good number of rescues by the ship's

Martin Murphy, who has a broque which makes his voice roll like thunder over a distant hill, was the first named called by the ship's scribe. George Gutch. Murphy stood erect and took a \$5 fine, which he paid, for being drunk.

In a barber's ''next gent'' voice, the scribe called John Sullivan, who had quite a long conversation Friday afternoon with John Barleycorn, and the latter bad got so much the better of the meeting that Sullivan was making an attempt to get more money to purchase stimulants so to keep up the argument by attempting to sell some cheap jewelry. Ship's officer Kelly came along about that time, and knowing that it was breaking the laws of the ''high seas'' of Salt Lake to peddle without a license, he called the two-horse tender, ''Black Maria,' and took Sullivan to the ship's hold. When brought before his honor on the main deck Saturday forenoon, Sullivan was charged with being drunk and violating the license ordinance. The drunk charge was dismissed, but for the latter oftense he will mop the lower decks and assist in road work ashore for a period of fifteen days.

Officer Phillips, who patrols the beach down by the Oregon Short Line depot, has been watching a trio for a period of ten days, who appeared to him as worthless characters, they hanging around saloons and pool rooms, so the man in blue took them in Friday night and put them down below. They gave the names of Will Clark, Arvil Wimpy and Will Groomes. Commanuler Diehl was half inclined to give them a term in the ship's hold, but on second thought decided the community at large would be better off if the men were ordered from the city. The trio promised to take passage directly for another port, and with that understanding they were released.

Arthur Brown and Earl Blackett, two sailors of usually steady habits, got into an argument shortly after midnight Thursday, and came to blows. What the argument was over the court did not learn, but it was something about as sensible as "Why does a chicken cross the road?" The gate receipts at the fight will not pay the fines of \$10 each which were imposed.

Purifying Power of Stuart's Charcoal Lozenges.

A Trial Package Sent Free.

The foul gases of the stomach and the torpid action of the liver are easy victims for charcoal to overcome. This great natural cleaner and aborbent will most certainly be relished by a system afflicted with gaseous or sluggish tendencies.

sluggish tendencies.

Charcoal has long been known as a great absorbent of gas. A panful of charcoal will positively purify a room filled with foul odors and decay. Its absorbing ratio is one bundred times greater than its own volume.

The ancients gave charcoal for many human ills successfully. The North American Indians used it for snake bite, poison from cating wild herbs and cured what they called "stomach bad medicine" with it.

with it. Willow charcoal seems to be the best product for human use, and no doubt the peculiar curative property of the willow is represented in a chemical quality in its charcoal.

Stuart's Charcoal Lozenges are pure willow and sweet boney blended by

whilow and sweet honey blended by tremendous power and compression into a very palatable lozenge. Two or three lozenges eaten after meals will prevent the process of digestion from producing noxious gases. They will vivity a lazy liver and aid every organ which is most likely to be overcome through its contact with impurities.
